Exceeding Expectations

*"I tell people if you can visualize a plot, you can make it with **Grapher**."*

Eric Tappa, Earth & Ocean Sciences
University of South Carolina

*"**Grapher** is a very powerful piece of software."*

Brent Dreyer, Direct Services, Inc.

*"**Grapher** is a fixed part of my life these days - for work, research, and personal matters. I recommend it to anyone who will listen!"*

Stephen Ross, Japan

*"**Grapher** is such a fantastic program! People always ask our group how we did our graphs, and we show them **Grapher**. They see it working and go away to buy their own copy."*

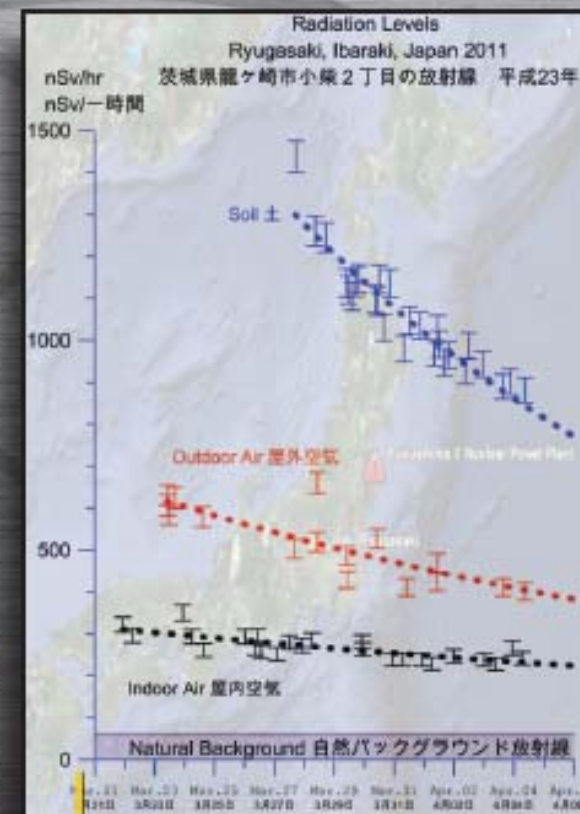

Sally Finora

Norman B. Keevil Institute of Mining Engineering

*"What really buys me is the exceptional quality of figures achievable (everyone could achieve) with **Grapher**."*

Igor Yashayaev

Bedford Institute of Oceanography, Canada

Transform your graph into an international sensation. All aspects of your **Grapher** plot support international font so nothing is lost in translation.

- Represent your data at its best with over fifty unique 2D & 3D graph types.
